

GUIDANCE REGARDING SUPPLIERS OF PLANS TO BE SUBMITTED IN SUPPORT OF A PLANNING APPLICATION OR BUILDING WARRANT.

Comhairle nan Eilean Siar ceased provision of a mapping service for the public from 1 January 2008.

You can however buy Ordnance Survey plans from an official Ordnance Survey agent or retailer. Links to the Ordnance Survey website and to a range of other mapping suppliers are available below. We cannot recommend any one supplier over another. Please note there may be other suppliers of OS Maps available by searching on the Internet or your local Yellow Pages. Most suppliers of maps will require an address and postcode or Ordnance Survey co-ordinates centered on the application site to allow them to identify the relevant land. Please contact the planning department on 01851 822690 or 01870 604990 if you require further guidance on the above.

Please refer to the relevant application guidance notes for detailed information on the plans required. In summary you require.

- a location plan that is accurate enough to show the site of the application clearly (ideally based on up-to-date Ordnance Survey maps at a scale of 1:1250 (built up areas) or 1:2500 (rural areas).
- a site plan drawn to scale to show the layout of the proposal within the site and the relationship of the proposal to the site boundary and any buildings on adjacent land (ideally based on up-to-date Ordnance Survey maps at a scale of 1:500 or 1:1000.
