

Vehicles allowed to use our Household Waste Recycling Centres

There are restrictions on the type of vehicles allowed to use our Household Waste Recycling Centres (HWRCs)

Vehicles which are not allowed to use our HWRCs:

Vehicles above 3.5 tonnes gross weight are not allowed to use our HWRCs

Vehicles which must have a valid booking confirmation before arriving at our HWRCs:

If you are using a trailer, commercial or commercial-like vehicle (e.g. any vehicle that appears to or could be used for a trade or business or commercial purpose such as a van, pickup, commercial 4x4 or similar, including hired commercial vehicles), you will need to book a time slot through our on-line booking system and be in receipt of a valid confirmation of booking prior to arriving at any of our HWRCs.

Vehicles which do not require a booking to use our HWRCs:

All residents using a car, estate car, people carrier, 4x4 or a campervan delivering Household Waste to any of our HWRCs are not required to have a booking prior to their arrival at our sites, provided the vehicle does not appear to be used for a trade, business or commercial purpose.

Booking System

We are currently in the process of setting up our booking system to allow commercial or commercial like vehicles access to our HWRCs for the disposal of Household Waste. Full details of this booking system will be issued in the coming days— please keep checking the Comhairle’s webpages for updates.
