# Havbredey Offshore Wind Farm

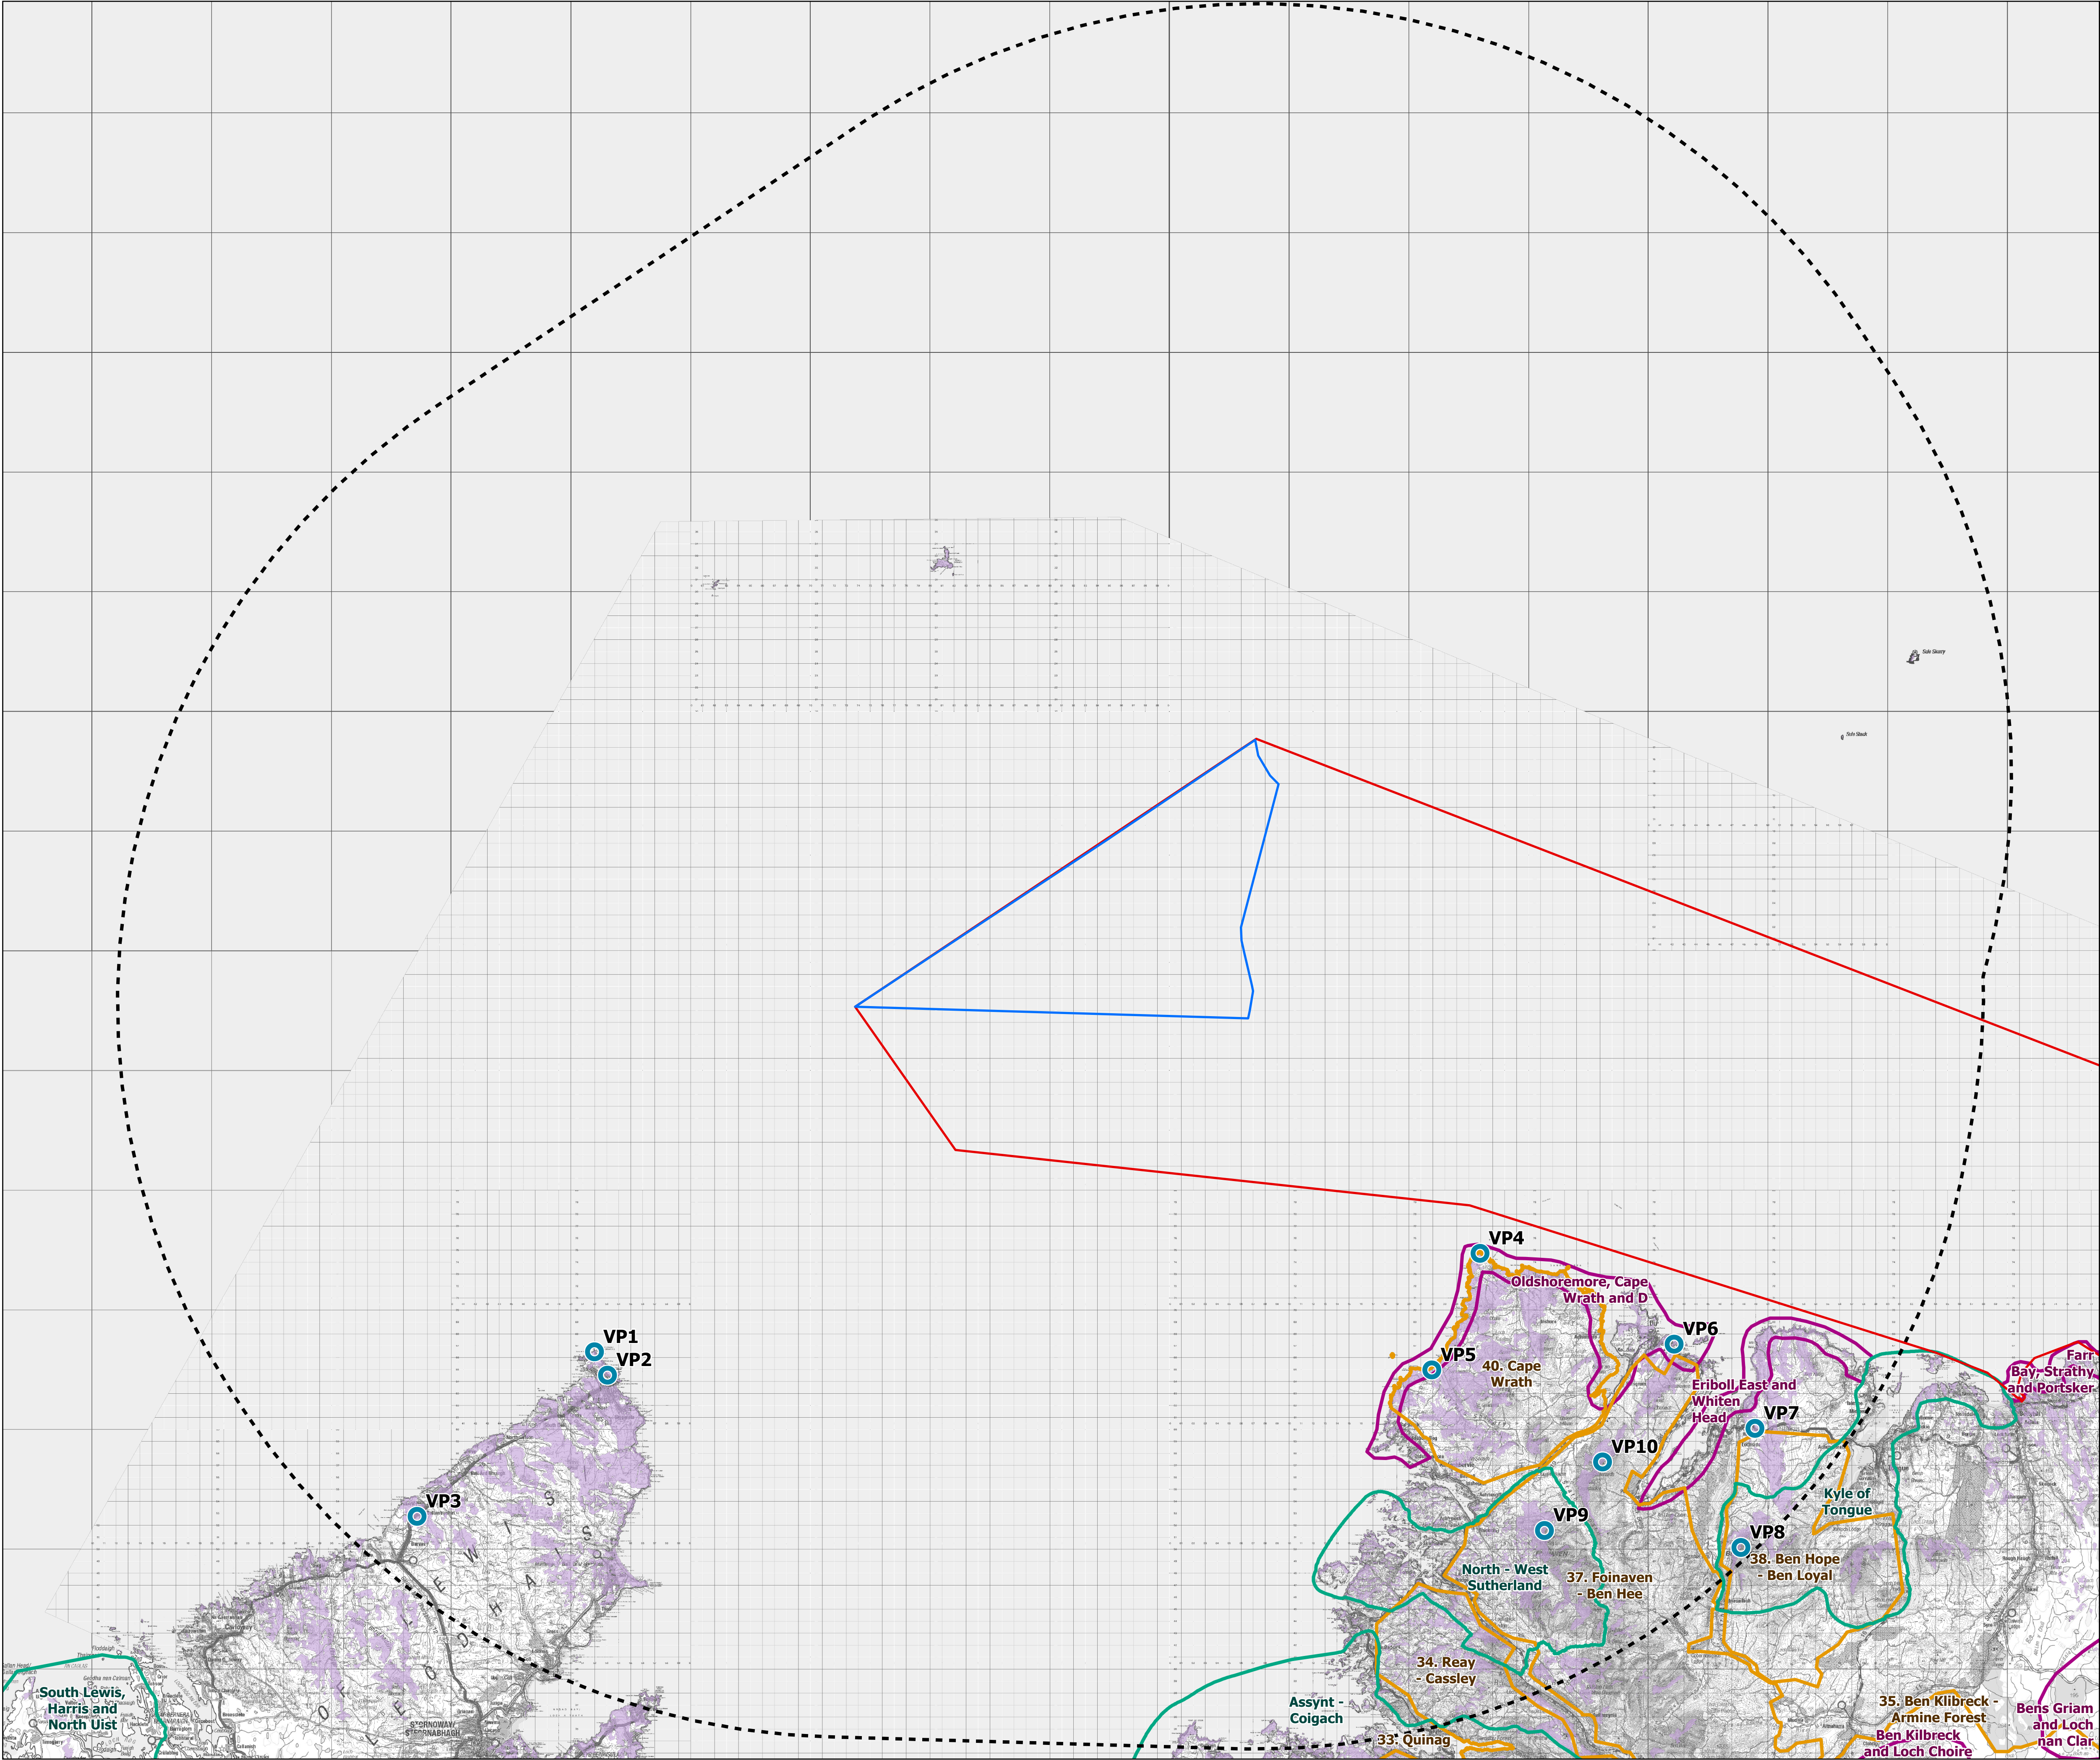

## Offshore Scoping Report – Appendix 3 Blade tip ZTV with Key Visual Receptors and Proposed Viewpoints (A1 extracts with 1:50,000 Ordnance Survey base mapping)

Document No.: HVB-NPI-ENV-RPT-0001  
Rev.: 1  
Approval Date: 2025.04.01

Information about this revision:

Revision Number	Reason For Issue	Author	Reviewer	Approver
1	Final for submission	ERM	SM/CL	MW/AQ

- Array Area
- Offshore Cable Corridor Area of Search
- 60 km Study Area
- Proposed Viewpoint Location
- National Scenic Area (NSA)
- Wild Land Area (WLA)
- Special Landscape Area (SLA)
- Zones of Theoretical Visibility
- Proposed Turbines may be visible

Notes: This drawing is based on a computer generated Zone of Theoretical Visibility (ZTV). The area shown indicates the theoretical visibility of the proposed development using OS Terrain 50 data only and does not take account of any screening from vegetation or built-form. The ZTV also includes an adjustment that allows for the Curvature and Light Refraction of the Earth.

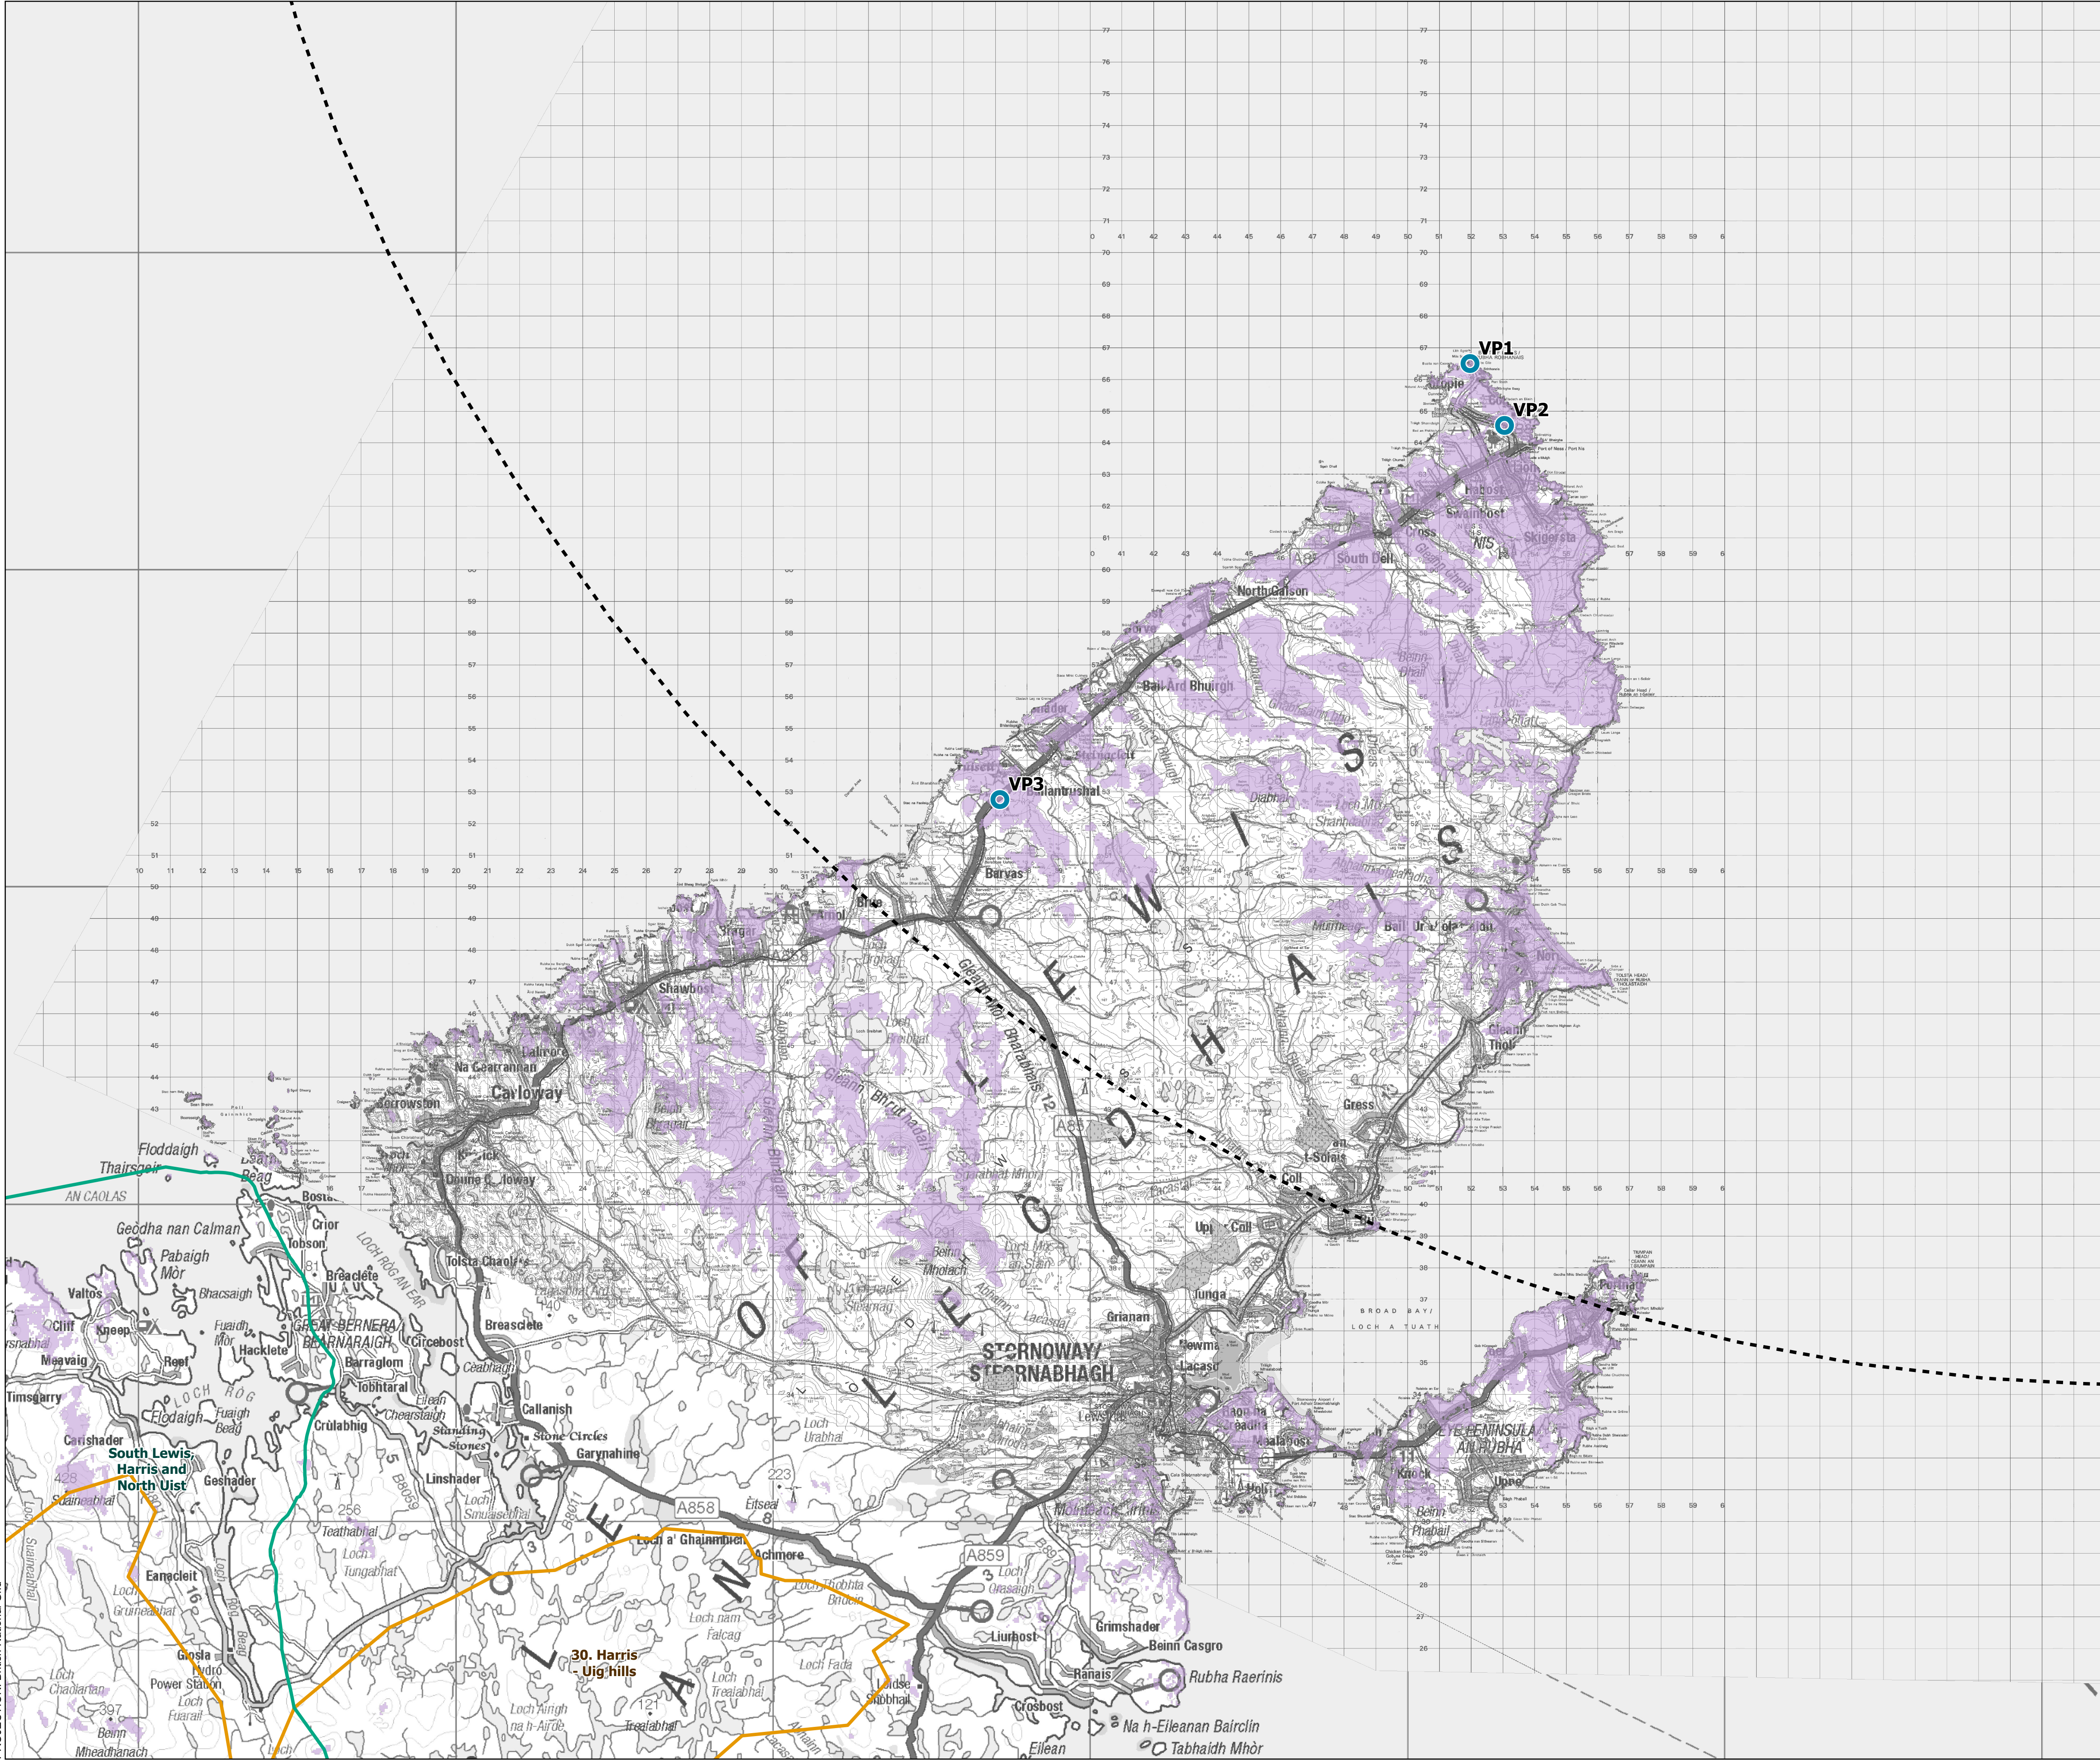

SCALE: 1:265,000	VERSION: A02
