Please show the percentage and amount (in £ Sterling) of the eligible costs which you are applying for under Axis 4 - this should be the minimum required for the project to proceed. Intervention rates will be advised by Fisheries Local Action Group (FLAG) after they have assessed your application, however you should note that it is unlikely that level of grant awarded will exceed 80% of your total project (eligible) cost. The figures shown here must tally with those at Section 9 (Project Costs) of the application form.

8.6 Quarterly Expenditure

Please give details of the estimated quarterly expenditure for your project in Year 1 and 2.

SECTION 9: PROJECT COSTS

9.1 Project Costs

The Axis 4 grant will not necessarily co-finance all elements of an individual project or scheme. Grant may only be awarded against activities or expenditure that are eligible under the Axis 4 guidelines. Where a project comprises expenditure or activities outwith these guidelines, these will be classified as ineligible for grant purposes.

Examples of items that are eligible and ineligible can be found at Annex 1. The lists are not exhaustive and merely indicate the broad types of expenditure. Applicants are responsible for correctly identifying eligible and ineligible activities and expenditures. The FLAG co-ordinator should be contacted where further clarification is required.

Ensure that the project costs are based on real and accurate costs and represent value for money. You should list each item of expenditure and its cost, including VAT where relevant. Any project costs that are not eligible for funding should be included. When detailing cash costs you should state whether these have been met by your own capital or with a loan.

You should enclose two quotations for single items over £1,000 and include costs that you intend to cover by way of in-kind contribution (see 9.2 below).

Please note that all hours claimed must be project specific and additional to normal working hours. Detailed timesheets will be required.

N.B. Funding cannot be awarded retrospectively under any circumstances, i.e. expenditure incurred prior to a project receiving approval has to be classed as ineligible. This principle is designed to ensure that Axis 4 funding is not being used to substitute for finance that has already been committed to projects.

Applicants should ensure that this section is arithmetically correct as errors can cause delays.

9.2 Match Funding

List all sources of contributions that are being used to make up the total funding package for your project. Such contributions might come from public bodies, voluntary bodies, other grant making bodies, local fundraising, or local businesses. These contributions do not need to be in place before you apply for a grant but you should whenever possible have letters of intent from all of your other funders at the application stage. **MATCH-FUNDING MUST BE IDENTIFIED BEFORE SUBMITTING YOUR PROJECT APPLICATION TO THE FLAG.**

Applicants should ensure that none of the contributions listed for the project incorporate any previously awarded European grant funding. Please note that the Axis 4 grant cannot be drawn down until all your other funding is in place.

In-kind support can be used to make up the balance of funding. The supply of land, property, long term equipment, raw materials and unpaid work provided by volunteers as part of the direct delivery of a project may be considered as in-kind support. Contributions which are in-kind must be able to be assigned a monetary value (e.g. based on standard hourly labour costs) and must involve a logical audit trail. Applicants should provide a detailed justification for proposals involving in-kind contributions. It should be noted that the level of EC financial assistance towards in-kind costs should not exceed the level of expenditure actually incurred. In other words, applicants cannot receive an Axis 4 contribution greater than the value of the actual costs incurred.

9.4 Project Income

Projects which generate income, such as entrance fees, sales etc are acceptable for support under Axis 4, provided that any profit element raised would be held by the community and either recycled back into the community through other projects, upkeep of community assets, or used to sustain the project in its longer lifetime.

9.5 Project Continuation Post-funding

Please provide details of how the project will continue after EFF Axis 4 funding has ceased, i.e. how will the continuing project be funded?

SECTION 10: COMPLEMENTARITY AND DEMARCATION

10.1

Does your project link to local, national and European priorities? EFF Axis 4 represents one element of funding and assistance, it aims to support relevant small scale economic and community development activities. As such, it should seek to complement other public sector

programmes operating in the same area. Where possible, potential overlaps must be avoided. If in doubt, guidance should be sought from the Project Officer.

SECTION 11: PREVIOUS FUNDING

11.1 – 11.2 Previous European Funding and Any Current Applications

You should state whether your organisation has received any form of European funding over the past three years, and also whether you have any current outstanding applications for funding.

SECTION 12: PUBLICITY

It is a compliance requirement and a condition of grant to ensure appropriate acknowledgement of Axis 4 (EU) funding in all projects. Project sponsors should note that failure to comply with the publicity regulation could result in the freezing of grant payments and/or the **repayment of monies already paid**.

Please indicate how you intend to publicise support for your project.

SECTION 13: DECLARATION

The person named as main contact for this application should sign the document, along with the Chairperson or Authorised Officer if this is not the same person.

SECTION 14: ATTACHMENTS

Please ensure that all necessary documentation is enclosed with your application form.
